Join us in spreading the joy of Karupatti Coffee and become part of a vibrant and growing franchise network.

Our Story:

Inspired by the traditional flavours of South India, Sillukarupatti was founded with a mission to introduce the world to the goodness of Karupatti. Derived from the sap of palm trees, Karupatti is not just a sweetener but a superfood with numerous health benefits. Our coffee blends this natural sweetener with premium coffee beans to create a drink that's both delicious and nourishing.

Why Choose Sillukarupatti?

Unique Flavour Profile: Our Karupatti Coffee offers a distinct taste with rich, caramel-like notes and a subtle sweetness that sets it apart from traditional coffee. Each cup is a celebration of flavour and tradition.

Health Benefits: Karupatti is known for its numerous health benefits, including its high mineral content and lower glycemic index compared to refined sugar. Our coffee provides a healthier alternative to conventional sweetened beverages.

Proven Business Model: With a successful franchise system and a commitment to excellence, Sillukarupatti offers a solid foundation for your business. Our franchisees receive comprehensive training, marketing support, and operational guidance.
